

5 CHURCH IT GAPS

THAT PUT YOUR MISSION AT RISK

Even mission-driven tech needs protection. Here are five mistakes we see often—and how your church can fix them today.

MISTAKE

One login for everyone

Livestream = no backup

Volunteer emails = comms hub

Open Wi-Fi for all

No IT lead or support

REMEDY

Role-based accounts + MFA

Scheduled, cloud-based backups

Secure, centralized communication tools

Separate guest and admin networks

Trusted tech partner on call

You Don't Have to Tackle Tech Alone

Whether you're volunteer-led or pastor-supported, we're here to help you build a smarter, safer IT foundation.
